

Pre & Post Treatment Info - Carbon Facial Laser

IMPORTANT- USE OF ANTIBIOTICS - Before each treatment, please inform us if you are taking any new antibiotics or medications, (or have a change in health history) as they may make your skin photosensitive and likely to burn or blister. If this is the case, we may not be able to treat you for one to two weeks after completion of the medication.

Pre-treatment

- Do not wear makeup or lotions on the day of treatment - on treatment area.
- No sun-tanning or self-tanners 4 weeks prior to treatment on the treatment area. This includes spray tans, tanning lotions, tanning beds, sun exposure, etc.
- Avoid treatments that may irritate the skin for 1-2 weeks prior to treatment (waxing, depilatories, etc.).
- History of herpes or cold sores may require an anti-viral prescription prior to treatment.

Post Treatment

Your skin will feel immediately smoother and look instantly refreshed. Better still, there's zero downtime! You can return to your daily activities immediately following your treatment. We recommend you use SPF 30+ and avoid abrasive exfoliates or other invasive skin treatments for a few days.

Emergency Information

Please contact Rejuvenations Medical Spa at 803-781-1201 during regular business hours if there are any questions or concerns with your treatment. For after hours or weekend, if you are concerned about anything you consider significant (non-medical) about your treatment, please call 803-781-1201. When voice prompted, SELECT OPTION TWO to leave a voicemail for Amy Powers Estes, the Managing Owner. She will be notified with an automatic transcribed message and will contact you upon receipt.
